

# JESSICA BROWN

Full Stack Developer

jessica.brown@email.com | (555) 012-3456

## SUMMARY

Full Stack Developer with 3 years of experience building web applications. Comfortable with both frontend and backend development, with stronger focus on backend using Node.js and Express.

## TECHNICAL SKILLS

- Backend: Node.js, Express.js, some Python (Flask)
- Frontend: React, HTML, CSS, JavaScript
- Databases: MongoDB, PostgreSQL (learning)
- Tools: Git, npm, Docker (basic)
- Cloud: AWS (limited experience), Heroku
- APIs: REST API development and integration

## WORK EXPERIENCE

Full Stack Developer | DigitalWorks | 2021 - Present

- Develop web applications using Node.js and Express for backend
- Build frontend interfaces with React
- Design MongoDB database schemas
- Create RESTful APIs for application features
- Deploy applications to Heroku and AWS
- Some experience with Python for scripting tasks

Junior Developer | WebCo | 2020 - 2021

- Built features using JavaScript and Node.js
- Worked with MongoDB and Express
- Created API endpoints for mobile app backend
- Basic experience with SQL databases

## EDUCATION

B.S. in Information Systems | Boston University | 2020

## PROJECTS

Social Media App - Built using Node.js, Express, MongoDB, and React

E-commerce Store - Created with Node.js backend and React frontend

## NOTES

- Primary experience with JavaScript/Node.js ecosystem
- Learning Python and interested in transitioning to Python-based backend

- Familiar with basic Docker usage
- Limited production AWS experience
